## The Sunsail 443

The Sunsail 443 is the newest generation of cruising catamarans built by Robertson and Caine and focuses on innovation, performance, and comfort. With an abundance of outdoor space and its generous sail plan, this catamaran is both luxurious and practical. The spacious 3 cabin 3 head layout has two identical en-suite cabins in the port hull while the starboard is dedicated to a fully functional owners suite with sliding door for privacy. Generous headroom throughout plus substantial storage capacity gives additional space for on board relaxation.

The innovative exterior of the Sunsail 443 features not only a spacious hardtop covered aft cockpit but also a large forward cockpit with access to the saloon providing even more space for relaxing. Her powerboat-style stepped transom enabling easier boarding. Environmental considerations were also central to the design, with solar panels installed on the helm hardtop to charge the on-board batteries. For additional comfort the Sunsail 443 features generator and air conditioning.
